Education – scholarships, supplemental curriculum, technology support, support of local preschools, school building projects, facilities upgrades (murals, fences, roofing, etc.)

Community Health – community health outreach with local medical personnel, facilities upgrades to local clinics, provide supplies to local clinics, health and first aid teaching in rural communities, partner with a clinic system in Liberia ((4 clinics - board of directors representation and fiscal partners for US donations).

English Camps – done in a variety of locations by training local partners to facilitate the actual event so they can recreate it at other times and in different locations. Done differently in each location based on local cultural focus.

ROSELLE YU

(GT PROJECT MANAGER- PHILIPPINES

Being a project manager at GT is an exciting and powerful experience. Few things are more invigorating than stepping out in faith and seeing God's spirit amplify our efforts to produce amazing results. In serving the Lord, we find ourselves blessed many times over.

Service Trips – GT coordinates service trips for individuals, families, and groups to any of our locations to work alongside our local partners.

Community Development – through long term relationships we learn the needs of a community, identify leaders, and give them the tools to make changes within the community and learn to serve so they can then help other communities.

Leadership Training – both for local leaders (teachers, government leaders, church leaders, business people) and youth.

NASRAH SUKUNANDAN

I'm thankful I have a scholarship because now I'm able to go to school without worrying about how I'm going to pay for school. It also helped me focus more in school because now I don't have to work overtime just to be able to pay for my school.

Being apart of GT has been such an amazing experience. I've met so many amazing people and seen God do miracles not only in my life, but in others' lives too.
